Home Autodesk productsEditor's Note: The following review first appeared in a slightly different form in 2013 and has been revised and updated for our readers since then. We're counting down to the Summer of the Midway, and it's time for a little more fundamental retro gaming. These are the games that all of us at gamesided grew up on, the games that we've taught ourselves to play, and the games that maybe the kids don't have around the house. We've gone straight to the top, for the games that have inspired us as gamers and innovators over the years, and we can't wait to play them all. The Need For Speed You've seen Need for Speed before. Maybe it was the arcade version, like you remember. As a kid, you'd spend entire after-school hours in the arcade. Maybe it was the original PlayStation game, like you remember. As a kid, you'd spend entire after-school hours in the arcade. Maybe it was the newer games, like you remember. As a kid, you'd spend entire after-school hours in the arcade. Either way, you're probably thinking of the racing game. There are a lot of great racing games, but there is no other racing game like the Need for Speed. In the game, you control three drivers, and you're always trying to finish in first. The mechanics work entirely by instinct. You have to get a feel for the car, its weight, and your speed; you have to learn the tracks, and you have to get around the other racers. Driving a car down the road is a little like solving a puzzle. You?
