Faced with the unthinkable-- namely, having to agree to use the technology to wipe out the new breed of living-dead-- your first call was to the best, John Nada. It was a steep ask, but who better to call than John Nada, the long-haired, jean-clad legend who is undoubtedly the most respected car-killer in the world? But is this your only option? Of course it is. What you think you know about John Nada is nothing compared to the truth. Truth is that he is an ace driver, driven by an in-your-face, no-holds-barred competitive streak. And he has one other thing going for him: a state-of-the-art souped-up, off-road-ready Ferrari F430 Scuderia Spider-8 Spec TR which will allow him to kill anything and everything. With the world's most outrageous challenge, Devil Corp needs a champion that's ready for anything. Your mission: make the impossible look easy, and win this thing. One evil corporation's last, best hope. Now, if you want a \$5,000 reward for your trouble, here's a chance to make your company's crazy, bone-crunching dream come true. You're going to have to sign a contract. It's all in writing, but you're going to have to do it anyway, because all I need is a signature. And a little bit of what's inside of you. So sign away. Sound great, huh? You're going to have to, because once this car kills that's it. You're dead, and the company will be bankrupt. So now you know the only way to save yourself. If you fail to do what you need to do, you'll go back to being just another corporate drone, the very thing you fought so hard to escape from. Do you want to end up in that sorry state? Do you want to risk everything you've got for one final, ill-fated shot at the biggest payoff of your life? The deal is, you'll have to drive this car into Hell

What's new:

Death Rally is the fifth studio album by American thrash metal band Slayer, released on May 8, 1984. It was the group's first major label record after a string of independent releases since their 1983 debut album, Show No Mercy, with help from producer-composer Gary Holt and singer-bassist Tom Araya, who replaced their previous bass player. While Araya himself plays bass for the recording of the album, the death metal and thrash metal bands that emerged in the late 1980s and early 1990s - such as Krisiun, Possessed, Krisiun, Sepultura, Testament, Death Angel, Gwar, Morbid Angel, Exhumed, Necrosion, Entombed, Entombed II, Volgarr, Toxik, Aggressor, Master Torturer, Rotting Christ, and 12 Stones - were generally influenced by Slayer's sound. Death Rally has been certified Gold by the RIAA for shipments of 500,000 copies. Rolling Stone gave the album four and a half-stars out of five. Production and music After the mixed reaction to Show No Mercy, numerous attempts were made to keep Slayer sounding fresh and innovative. producer and guitarist Gary Holt wrote all songs without vocalist Tom Araya. Araya felt the band was not challenging enough in the studio for producer Alan Blatter, thus took to the lyrics of songs Araya gave to him. The band usually recorded three songs every three days, often recording them in a day, particularly the songs that didn't get along with the schedule. Death Rally is the first Slayer album to make heavy use of tempo and riff changes, and features a broader variety of styles, including power metal, thrash metal, and death metal. Araya's voice also displays a wide variety of styles, from raspy growls to soaring, melodic death metal growls. According to the album's liner notes, Holt wanted Slayer to be as stylistically varied as the 1981 tape His Name Is Alive's Billy and the Kids on 1-2-3-4, the 1983 record Fatal Fields on the Flames of Passion, the 1984 EP Slayers Revenge and the 1983 band Megadeth's self-titled debut. Musically, Death Rally did not seamlessly transition into thrash metal. In a 2011 interview on Blabbermouth.net, singer/bassist Tom Araya said, "We were not into thrash when
