Dear Skidmaster, There's something I've got to ask. I don't feel that I'm understanding why I've ended up on this earth. I'm asking forgiveness with all the skill I've got, "Please forgive me." It's understanding the exact reason that I existed at all, it's been overwhelming me for some time, and I am at my wits' end. My parents were taken from me when I was five years old. I was left an orphan, with a mother who was suffering from severe depression. It didn't appear that she was capable of caring for me, and I was put to work as soon as I could walk. I got beat up a lot, and eventually, I started running away. I took with me only the clothes on my back, and the pain I felt was confusing enough to make me do things for no good reason

, Few Gloves You know how in Full Spectrum Warrior canon you're supposed to get hurt from experiencing first hand how deadly the bad guys' ordnance can be and then be shown how you can mitigate damage despite getting hit by it? I didn't get hurt that way. Sometimes I got lots of guys to get killed though... "Yes, that's a heroic role you're being assigned," your nice-guy First Sergeant says like a henchman in a Mel Brooks movie. "Don't blame me." "I'm guessing you're Sergeant Fournier," I say on my first leave from the Army, when I told my brother where I was headed. "That's me." "I'm Sarge," I say, in my most sincere way. He says, "Like Lenny Moore in Caddyshack 2." The place had been almost completely destroyed after the initial attack by terrorist nuke-carrying IEDs. Nearly everything was still smoking. Official Army guys, helped by civilians, were piled in a pile on the floor. I shook two hands. One was a black guy. The other was a Mexican-American guy, also black, which I noticed now. His was big, strong, a palm-palms kind of rough, his name was Jay, hands together to karate-chopping chop away the stink. Mashcon 1 was a stinking shit hole. It looked like it had been rotated by a tornado's twirl. One of the places you can get your boots dirty is an American chemical weapons dump. Those weapons have to be collected and destroyed and otherwise eliminated along with the dirt. Eight years earlier, a small nuclear device had been found during a routine Army-led search of the area for illegal dumps, in Iraq. The Muslims had heard tell that all white Americans are genocide demons, even after spending the ensuing decades, such as they have, trying to prove that theory wrong. Though no one knew for sure, it was viewed as an inside job, particularly given the fact that terrorists had been attacking civilian government targets in the capital and in New York and in Dallas, and, of course, the Twin Towers were in the path of all those military targets. The Army had started to predict a

The way things in this game work, though, is based on multi-colors, flashes of light, or footsteps echoing. You know when you get it because the game starts causing massive explosions from random locations. And something else happens as soon as that first explosion happens. You get the freak out. The task is to find where those explosions are and eliminate them quickly. Game Polygone is one of those games that can be done on a budget.
