MiniNotes 2007 Crack+ Serial Key [2022]

MiniNotes is a software that helps you store notes, reminders, ToDo lists and memos without cluttering up your Desktop. MiniNotes is designed to fast-track and organize text files on your desktop while you work. It was originally developed as a software development tool, someplace where you could keep a multiple of text files organized while you work. But you can do more with it than just that. You can use it for household purposes, from keeping track of a ToDo list to keeping your shopping list, in the office, such as writing down a telephone number or email address, or even while playing games. Its uses are open to your imagination. It's easy and convenient to use. When you use the program to jot down notes, you don't have to worry about which folder you saved the files to. The Interface is Tab-based, and each of the ten tabs can be configured to your personal wish. To keep your notes active, out of your way and only a click away, you can order MiniNotes to run in the Taskbar. MiniNotes is DotNet enabled, which means you have to have Microsoft's Dot Net Framework version 1.1 installed on your machine. Download: Features: ? 10 tabs (or more) ? Organize text files as you wish ? Easy to use ? File-based database ? Multithreaded (can be used in multiple applications) ? Desktop file can be ordered to run in the Taskbar ? DotNet enabled (required 1.1 version of DotNet Framework) Ease of use Functionality Product Quality Customer support Value for money Overall: 4.5 Name: Thomas James Location: USA Date: 05/01/2005 Review Source: Capterra This is the only software that actually does what it is supposed to do. Everything is clean and easy to use. It really makes writing notes, to do lists, and shopping lists a snap. Ease of use Functionality Product Quality Customer support Value for money Overall: 5 Name: James Steen Location: New Jersey Date: 05/01/2005 Review Source: Capterra I love the way this program works. It is a
