GEAR DVD is a software utility that allows you to create, burn, and copy CDs and DVDs. CD and DVD burning includes many advanced features such as: creating or recording CDs or DVDs, burning DVD-Video, DVD-Audio, and DVD-ROM titles, adjusting the layer break settings for DVD-9 titles, adding multisession CD's, backing up your files, burning or copying discs or files to recordable or erasable CD or DVD media, ripping CDs to WMA or MP3, ripping CD-audio tracks to MP3, CD-text, or OGG, setting track-at-once or disc-at-once recording speed, using an audio editor, converting your GEAR project to a physical image (ISO, ISO/UDF), and burning to DVD-R DL media.
